

Tokyo Declaration

(English Translation by SMHRIC)

Today, as freedom, democracy and human rights become an irresistible historical trend of the 21st century, China's various internal social problems are teetering on the brink of collapse. The Chinese authorities' colonial rule in Southern Mongolia is becoming increasingly brutal and the Mongols in the region are facing a crisis of survival. It is a deciding moment for every Southern Mongol to choose the fate of the nation.

At this historic moment, the Inner Mongolian People's Party held its Special Meeting. Nearly a hundred members from more than ten countries and regions including the United States, Canada, Germany, Sweden, France, Netherlands, Norway, Mongolia, and Southern Mongolia attended the meeting to discuss matters of vital importance concerning the future of our nation.

The Meeting unanimously passed the following resolutions:

1. Uphold the principle of obtaining Southern Mongolian freedom and independence through non-violent means;
2. The Party headquarters is moved from the United States to Japan;
3. Branches are established in the United States, Europe, Japan, and Mongolia;
4. The Party regulations and organizational structure were finalized;
5. Actively create an environment in which the Southern Mongolian provisional government will be established when the right conditions arrive.

The Party calls on governments of various countries, non-governmental organizations, and individuals from all walks of life to pay close attention to the Southern Mongolian human rights situation, the crisis confronting Mongolian cultural integrity, the environmental devastation of the Mongolian grasslands and to support the Party's just struggle for gaining national independence.

We urge the Chinese authorities to respect the political rights of Southern Mongolians, stop the gross human rights violations of the Southern Mongolians, halt destruction of Mongolian culture and their natural environment and immediately release all imprisoned Mongolians dissidents including Hada.

As Mongols around the world celebrate the 800th anniversary of the founding of the Mongol nation, we urge all Mongols to support and join our campaign against the brutality of the current Chinese regime. Let us carry forward the unconquerable spirit of our great forefather Chinggis Khan and work in unity to continue our struggle side by side and regain our ancient Mongolian glory and dignity. Let us work together to create an independent and free Southern Mongolia.
